Comment:

This paper is well organized and followed the manuscript guidelines to a large extent. The introduction section is good and shows the importance of the study. Literature review is adequate. Findings of the study are consistent with the rationale for the study. Approach used in the paper was praiseworthy. In my opinion, it should be published with no revision although implication to the research needs to be explicit.

Comments

I have gone through this paper. The authors of this paper have really done well. I am confident with this paper. It is well written and well organized with a good background. The part I found most interesting is the presentation of thoughts in the paper is notable. It will make a contribution to the relevant field of research. In my opinion, it should be published in its current form.
